THE FUTURE COMPETITIVENESS OF THE THAMES VALLEY

Friday 29th September 2023

Professor Robert Van de Noort is the Vice-Chancellor of the University of Reading, a position he has held since 2018. In this capacity, Robert is the de facto Chief Executive Officer and has general responsibility to the University governing body – the Council – for maintaining and promoting the effectiveness, efficiency and good order of the University.

An archaeologist specialised in coastal and terrestrial wetlands, Robert has undertaken research in many parts of the world, and has a keen interest in how climate and environmental change impact on coastal communities.

Outside the University of Reading, Robert chairs the Thames Regional Flood and Coastal Committee, which helps to provide governance for the Environment Agency Flood and Coastal Erosion risk management functions and cover all flood risks that are not the responsibility of the water companies.

PROFESSOR ROBERT VAN DE NOORT

Vice-Chancellor
University of Reading
