ARTIFICIAL INTELLIGENCE AS A FORCE FOR GOOD

Friday 15th March 2024

Jenny is the Managing Director for Microsoft's Modern Work business in the UK. She has worked in the IT industry for more than 30 years with skills and experience in leading direct and channel sales operations. Jenny is also a member of the Microsoft Solutions Leadership team.

Microsoft are changing the nature of work by empowering people and organisations to achieve more. Their Modern Work solutions are designed to help businesses of all sizes to collaborate, communicate, and work more efficiently. Microsoft are constantly innovating and developing new tools and technologies to help their customers stay ahead of the curve.

"I'm excited to share that my current focus is on Generative AI, driving Microsoft Copilot where our vision is to bring the power of GenAI to everyone, across work and life. I'm passionate about its potential and its ability to transform businesses and improve people's lives."

JENNY KALENDERIDIS

Managing Director Modern Work, UK
