OMNIDROME INNOVATION NETWORK EVENT

FOR UNIVERSITY KNOWLEDGE EXCHANGE
PROFESSIONALS AND INDUSTRY BROKERS

Tuesday, 23 July, 10.00-16.30, Royal Holloway University Egham

What is the Omnidrome Innovation Network?

The Omnidrome Innovation Network brings together academic and non-academic partners to explore R&D and education/training opportunities relating to land, water, and aerial drones. Applications include robotics, AI, sensor technologies, monitoring of natural and human environments as well as culture, arts and humanities.

What is the event all about?

An opportunity to connect with knowledge exchange professionals and industry brokers with interests in Research & Development (R&D) and application of drone technology. Hear expert talks on Drone & Robotics Innovations. Jointly explore funding and resources for Drone & Robotics Research in the UK. Discuss opportunities for accelerated Knowledge Exchange between Academia to Industry, and learn how our facilities can benefit your work.

Why join this network?

- **Connect** with other knowledge exchange professionals and industry brokers

- **Learn** from experts

- **Explore** how our Omnidrome facilities could benefit your work and that of your stakeholders.
