

## **Storetec Leads the Way in Box Storage Solutions: Free Perm Out and Secure Destruction Offers**

As businesses across the Thames Valley face ever-increasing storage and compliance challenges, Storetec is setting the industry standard by offering a service that no one else is providing: free perm out and free secure destruction on boxes in storage.

For many organisations, managing compliance is becoming more difficult due to exorbitant perm out fees imposed by traditional storage providers. These fees are not only an unnecessary cost burden, but they can also hinder effective compliance management. At Storetec, we believe that compliance should be simple and cost-effective. That's why we're proud to offer free perm out and secure destruction services for boxes stored with us.

### **Why Choose Storetec?**

We understand that digital transformation doesn't necessarily mean digitising everything at once. For companies still transitioning, we provide the flexibility of storing physical documents while digitising what you need, when you need it. With our scan-on-demand service, you can access specific files stored in boxes without the need to retrieve everything. This provides a perfect balance of storage and digitalisation, allowing businesses to remain compliant and efficient without overspending.

### **Breaking Down the Barriers to Compliance**

Many companies are trapped by their current suppliers, facing significant fees for perm outs that make it difficult to manage compliance effectively. With Storetec, those barriers are removed. We make the process easy. You can store your boxes with us while planning your digital transformation at your own pace, with the peace of mind that when you're ready, you won't be hit with hidden charges.

We also offer a comprehensive collection service, allowing businesses to seamlessly transfer their boxes from another provider to Storetec. Our free perm out and destruction services ensure that companies can dispose of documents securely and in compliance with all regulations without paying over the odds.

### **Is Your Current Supplier Costing You Too Much?**

If you're currently paying large sums for perm outs or destruction fees, now is the time to rethink your storage solution. Storetec's offer of free perm outs and secure destruction is unparalleled in the industry. Our commitment to simplifying document management and compliance makes us the ideal partner for businesses looking to streamline their storage and reduce costs.

Make the switch today, and see how Storetec can help you achieve your compliance goals without the hefty price tag.
