BUSINESS AND POLITICS

Friday 27th September 2024

Stuart Carroll is a senior health economist, epidemiologist and market access expert specialising in HEOR, epidemiology, health policy, public affairs and public health. Stuart served on the UK Vaccines Taskforce during the COVID-19 pandemic and has expertise in pandemic preparedness and health protection.

Areas of interest include economic modelling; pricing and reimbursement; HTA and market access; health policy and health systems; communications; and the issue of economic value in healthcare. He is trained in accountancy and has experience undertaking financial audits. He is an infectious disease and vaccines specialist who worked in MS, hepatology, rare diseases, psychiatry and oncology.

Stuart is widely published and provided expert evidence as a witness to parliamentary committees. He has served as a voting committee member on the New Drugs Committee for the Scottish Medicines Consortium and NICE Appeals Panel.
