

# Windsor Debates

HEALTH AND LIFE SCIENCES

Friday 21st March 2025

Peter is Chief Executive of ABHI, representing 400 members across medical devices, diagnostics, and digital health. He collaborates with senior government and NHS leaders to shape policies fostering industry growth and ensuring patient access to effective and life-saving technologies.

Serving on key government committees including the Life Sciences Council and Health Technology Partnership, he represents industry on NHS England's Innovation System Programme Advisory Group, where he is a workstream Chair. A Board member of the Accelerated Access Collaborative and the Office for Strategic Coordination of Health Research, Peter chairs the Oxford & Thames Valley Health Innovation Network and leads ABHI's partnership with the Shelford Group.

Peter is a Board Member of MedTech Europe and chairs its UK Working Group. He leads ABHI's engagement with AdvaMed and the Global Medical Technology Alliance, focusing on critical issues like regulation and sustainability, while promoting best practices in inclusion, health equity, and women's health.

PETER ELLINGWORTH

Chief Executive

Association of British HealthTech Industries (ABHI)
