HEALTH AND LIFE SCIENCES

Friday 21st March 2025

Camilla has nine years' biotech start-up experience as CEO and COO working exclusively on hydrogel-based medical devices.

Originally a veterinary surgeon, she has run veterinary clinical trials and launched the veterinary arm of a biotech company.

Following on from this she moved into the human biotech sector where she has been involved in all aspects of start-ups including, R&D, fundraising, regulatory, pre-clinical and clinical trials for medical devices.
