HEALTH AND LIFE SCIENCES

Friday 21st March 2025

Paul Smith is the Group Quality & Regulatory Affairs Director at Owen Mumford, a global leader in medical device innovation. As part of the Executive Team, Paul plays a key role in shaping the company's strategic direction.

With over 20 years of experience in quality assurance and regulatory compliance, he ensures the company's products meet the highest international standards for safety and effectiveness. Passionate about sustainability, Paul integrates eco-friendly practices into regulatory strategies, supporting Owen Mumford's commitment to reducing its environmental impact.

His leadership drives continuous improvement across product lines, aligning quality objectives with the company's broader sustainability goals. Prior to joining Owen Mumford, Paul held several roles in leading healthcare firms, where he honed his expertise in navigating complex global regulatory landscapes. Known for his strategic insight and dedication to excellence, Paul strengthens the company's reputation for safe, sustainable, and innovative healthcare solutions.
