Shaun Orpen, Group CEO SCAD Software

With over 30 years of board-level experience in both blue-chip and SME technology/mobile organizations, Shaun has a proven track record of driving growth and innovation. Currently, he serves as the Group CEO and shareholder of a disruptive software development company, spearheading its international expansion into Europe and North America.

Shaun was a key member of the executive team that transformed Microsoft UK from a £10M to a £1B business over 13 years. He also managed the £500M Orange business, focusing on small and medium enterprises. Shaun excels at leveraging his extensive blue-chip experience to foster growth in smaller technology ventures.

Known for his analytical and strategic approach, Shaun is dedicated to building scalable growth. His career spans from large enterprises to startups, and he is passionate about business transformation and the continuous modernization opportunities available to companies today.
