

# Education & Skills

T V C C I N D I A D E S K

India's growing young population is driving demand for higher education, vocational training, and digital learning solutions. The UK's globally respected education sector is a natural partner in shaping the workforce of the future.

## Why This Sector Matters

- India has over **35 million students enrolled in higher education.**
- Rising demand for **vocational training and edtech solutions.**
- UK universities are **globally ranked and trusted in India.**

## Opportunities for UK Businesses

- Partner with Indian institutions for **joint programmes.**
- Export **edtech platforms and digital learning tools.**
- Provide skills **training in healthcare, manufacturing, and IT.**

## Opportunities for Indian Investors

- Invest in UK **universities and education partnerships.**
- Establish **student mobility and exchange programmes.**
- Collaborate on **skills development aligned with India's workforce needs.**
