

Infrastructure & Smart Cities

TVCC INDIA DESK

India's ambitious infrastructure and smart cities programmes offer immense potential for UK expertise in urban planning, sustainable design, and project finance.

Why This Sector Matters

- **Over 100 smart cities** under development across India.
- **Major investments** in transport, logistics, and housing.
- UK strengths in **architecture, engineering, and project finance**.

Opportunities for UK Businesses

- Export **design, planning, and engineering** services.
- Collaborate on **smart city technologies** (IoT, mobility, waste management).
- Provide **expertise in sustainable construction and green buildings**.

Opportunities for Indian Investors

- Invest in **UK infrastructure regeneration and transport projects**.
- Partner with UK firms on **innovative housing and logistics solutions**.
- Access London's **infrastructure finance ecosystem**.
