

Finance & Professional Services

TVCC INDIA DESK

Finance and Professional Services (FPS) is central to the UK–India relationship. As India expands investment in infrastructure, smart cities, and digital transformation, demand for world-class financial, legal, and advisory services is rising — creating strong opportunities for UK expertise and capital.

Why This Sector Matters

- Provides the **finance, legal frameworks, and risk management** needed to deliver major infrastructure and smart-city projects.
- Enables **cross-border investment**, improving project bankability and investor confidence.
- Supports **FinTech and digital innovation**, where both countries are global leaders.
- Strengthens **governance, ESG standards, and compliance**, aligning projects with international expectations.

Opportunities for UK Businesses

- **Project finance & PPP** advisory for transport, energy, and smart-city developments.
- **Legal, regulatory, and contractual services** for cross-border and infrastructure projects.
- **Consulting and ESG advisory** for urban planning, sustainability, and risk management.
- **FinTech partnerships** in digital payments, cybersecurity, RegTech, and data solutions.
- **Insurance & reinsurance** for construction, climate, and operational risks.

Opportunities for Indian Investors

- **Direct investment in UK infrastructure and smart-city projects**, leveraging UK financing and expertise.
- **Participation in green and sustainable finance** opportunities, including green bonds and ESG-linked funds.
- **Co-investment platforms for high-value projects**, reducing risk while accessing UK markets.
- **FinTech and digital services investment**, benefiting from UK's mature regulatory and innovation ecosystem.
- **Insurance and risk-management partnerships**, expanding into UK markets with global standards.
